- SQL
- HTML 5
- Spring Boot
- Git
- TDD & JUnit
- CSS
- REST APIs
- Agile
- Gradle
- Maven
- **TypeScript**
- Postman

EXPERIENCE

Skill Distillery - May 2023 - September 2023

Intense, immersive programming curriculum teaching Java and object-oriented concepts to complement full-stack technologies.

- Implemented several full-stack applications using Java 8.
- Created RESTful interfaces with Spring Boot, utilizing MVC design pattern.
- Collaborated in an Agile team incorporating SCRUM meetings, Git / GitHub, Trello, and Pair Programming.

GuitarTech - <https://github.com/JustinMartz/GuitarTech>

- Full-stack application with REST API to keep track of a user's guitars. Built with Angular, Spring, and MySQL and deployed with Apache Tomcat to an Amazon EC2 instance.

Store Manager, Mr. B's Wine & Sprints — 2012 - 2019

Store Manager for busy Denver retail hub for craft beer, small-batch spirits, and natural wine.

- Grew "rewards program" customers, email subscribers, and social media that significantly improved customer interest and loyalty.
- Increased liquor sales volume and profits by approximately 20% during term as buyer.
- Introduced and implemented organizational changes such as: regular staff meetings, daily "shift notes", and annual performance reviews.
